Using The Mail Service

Important--Please Note

This form can be used by Sav-Rx members only. Your prescription(s) will be filled for the quantity prescribed by your physician up to the supply limit. For example if your prescription is written for a 30-day supply with two refills, you will receive a 30-day supply. The refills cannot be combined to equal one 90-day supply. Please encourage your doctor to write for a 90-day maintenance supply to take full advantage of your mail service benefit.

For your first order: Be sure to remove the mail order form section of this brochure to register you and your dependents. Send it along with your first prescription(s). Please register all covered members, even if each person does not have a prescription enclosed at this time.

Prescriptions & Refills via E-scribe:

Your doctor may E-scribe your prescription(s) to Sav-Rx through Surescript.

Refill by phone (with credit card):

Call Sav-Rx Customer Service 1-800-890-8170. Please have your prescription number(s) and credit card ready.

To avoid delays: Always include the appropriate payment required at the time your order is placed. Prepayment is required with every order.

Customer Service: For questions regarding your order, or to speak with a customer service representative call toll-free: 1-800-890-8170.

Questions & Answers

Q. How do I get the best value in my pharmacy benefits?

A. The best way to ensure that you are getting the best value in your pharmacy benefit is to use generics whenever they are available. Many brand name drugs do not have a generic equivalent but a generic drug is available within the same therapeutic class and is designed to treat the same condition. It is recommended that whenever you visit with your physician, you discuss the importance of using generic equivalents whenever they are available because it will save you money at the pharmacy.

Q. Are generics just as safe and effective as brand name medications?

A. Generic drugs have been approved by the Food and Drug Administration (FDA) as safe and effective. Generic drugs contain the same active ingredients in the same amounts as the brand name product. The generic version works like the brand name drug in dosage, strength, performance and use. Generics may differ in color, shape, size or flavor from the brand product; however, these differences do not effect the performance, safety or effectiveness of the generic drug.
